

Kyabra Street, Runcorn 4113

Kyabra’s “**Environmental Sustainability Working Party**” meets every month to consider strategies to lessen any of Kyabra’s negative impact on the environment in which we all live and work.

Since 2009 this group has been responsible for:

- Effective recycling of paper waste in Kyabra’s offices
- Installation of 2 water tanks servicing the wc’s in the building
- Installation of Photovoltaic System to harness the energy from the sun and feed back into the electricity grid
- Held a “Greenie Day” of activities inviting the community to attend workshops and discussions on a range of topics including solar cooking, gardening, environmentally safe cleaning, etc.

In 2011 we are reaching into our community and asking those who may be interested to join our group and support us in planning “Greenie Day – 2012”, as well as looking at our green practices throughout the year.

Please contact Jean Tally, Flora, Janet, Linda or Anne at Kyabra on 3373-9499 for more information.

This group will meet on the 4th Monday of every month.
It would be great if you could join us!
